Description

SAMS is complete Sales management software, and as the name says it all, it is state of the art Distribution management software integrated with Hand Held, in a REAL TIME environment that provides valuable information of the valued clients at various channels of trade of their BRANDS or PRODUCTS that relates to:

SECONDARY sales made last day

- Product Inventories
- Schemes & Discounts
- Any other promotions
- Any periodical reports

Our Sales management software is used to automate the process of Order Booking from Retail outlets delivering the respective goods with automated "Retail Wise" bill generation.

Why SAMS

The most important and handy purpose of this Sales management system is to automate sales process. Some of the major reasons to choose our SAMS Distribution management software are:

- It keeps the record of all sales that have been done through the distribution company.
- It will reduce human error in the process of sales automation.
- The key purpose of this software is that there will be no need to deploy it at individual machine.
- There will be a centralized control.
- You will access SAMS by fast services Pakistan, 24/7 online software with your own unique URL.
- Accurate, secured and live data for decision making.
- Reports which summarizes the data for effective management decisions.
- System which effectively safeguards organization's assets.
- Provides ease and economy in running operation effectively.
- Solution which helps to focus on business productivity.
